

MOHAMED EBRAHIM DRAZ

Mansoura, Egypt / +20 1018801718 / drazmohamed542@gmail.com / [LinkedIn](#) / [GitHub](#)

SUMMARY

Junior DevOps Engineer and AWS-licensed professional with hands-on experience in cloud infrastructure, orchestration, containerization, and automation. Skilled in managing core AWS services including VPC, IAM, CloudFormation, CloudWatch, EC2, S3, and Lambda, alongside Linux administration and CI/CD workflows. Currently specializing in Docker, Kubernetes, and scalable infrastructure through the Digital Egypt Pioneers Initiative (DEPI).

EDUCATION

B.Sc. in Communications Engineering

Delta University for Science and Technology

Sep 2017 - Jul 2022

GPA: 3.103 / 4.0 (Very Good)

Graduation Project: Smart Home Design — Grade: Excellent (A+)

PROFESSIONAL EXPERIENCE

DevOps Engineer (Certification Track)

Digital Egypt Pioneers Initiative (DEPI) — Egypt

Dec 2025 - Jun 2026

- Specialized in Enterprise Linux administration, CI/CD optimization, containerization, and orchestration.
- Collaborated with cross-functional teams to engineer a modular Ansible role for Nginx, automating deployments across 10+ nodes and reducing manual environment setup time by 50%.
- Designed a modular Ansible role following Ansible Galaxy best practices, increasing deployment frequency by 25%.
- Planned standardized infrastructure automation, reducing setup time by 50% while maintaining 100% compliance with configuration and security standards.

AWS Cloud Architect (Certification Track)

Digital Egypt Pioneers Initiative (DEPI) — Egypt

May 2024 - Oct 2024

- Specialized in AWS architecture design, VPC networking, IAM security, and Infrastructure as Code using CloudFormation.
- Built high-availability AWS infrastructure utilizing VPC networking and IAM policies.
- Established monitoring and alerting using CloudWatch and SNS, achieving 99.9% uptime.

PROJECTS

Microservices Voting Application ([VOIS Project](#))

Mar 2026 - Jun 2026

- Built a production-grade Amazon EKS cluster using Terraform with S3 and DynamoDB state locking.
- Deployed Flask and Node.js microservices using GitOps workflows with Argo CD and Jenkins, enabling zero-downtime deployments.
- Applied NGINX Ingress and Cognito JWT authentication to secure service access.
- Integrated MongoDB Atlas with Datadog and CloudWatch monitoring, reducing monitoring blind spots by 40%.
- Optimized deployments using Helm charts and Horizontal Pod Autoscaling (HPA).

CERTIFICATIONS

- AWS Cloud Solution Admin & Architect – Digital Egypt Pioneers Initiative (DEPI)
- DevOps Prerequisites – Mahara Tech
- Advanced Business English Program – Mansoura University

AWARDS & ACHIEVEMENTS

- AWS Foundation Badge
- AWS Operations Badge
- AWS Architecture Badge
- Mahara Tech DevOps Badge

TECHNICAL SKILLS

DevOps & Automation

- Docker
- Kubernetes (EKS)
- Ansible
- Terraform
- CI/CD Pipelines
- GitOps
- Argo CD
- Jenkins

Cloud Platforms

- AWS (EC2, VPC, S3, IAM, Lambda, CloudWatch)

Monitoring & Observability

- Prometheus
- Grafana
- Datadog

Programming & Scripting

- Python
- Bash

Operating Systems

- Linux (Enterprise Linux)

LANGUAGES

- Arabic: Native
- English: Professional Working Proficiency
